DETAILED ACTION

Allowable Subject Matter

Claims 1-3 and 6-43 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Although the prior art teaches an optical arrangement comprising a plurality of transmitter and or receiver elements and a method for making such an optical arrangement, the prior art fails to teach such an apparatus or method for making such an apparatus further comprising an undercut for engaging the diaphragm aperture as claimed in independent claims 1 and 21. The prior art also fails to teach such an apparatus or method of making such an apparatus further comprising additional fastening apertures for the optical elements as claimed in independent claims 24 and 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
